

About Me

A highly motivated and hardworking individual, who is seeking a challenging role as an entry-level full stack web developer with your Company. My education in full stack web development at the University of Sydney, and self-taught knowledge and experience combined with my interest, passion and enjoyment in coding, programming, Cloud Computing and Virtualisation, will enable me to learn, contribute and excel in the Web Development Industry. My ability to learn new coding languages and programs enables me to understand coding concepts quickly which can then be transferred and utilised in developing user friendly web-based applications using html, css, javaScript, bootstrap, jQuery, API's and many more coding languages and concepts.
